

Abdelhalim Azzouz

Professor of Mathematics

Department of Mathematics, Faculty of Sciences, University Salhi Ahmed, Naama, Algeria

azzouz.abdelhalim@cuniv-naama.dz abdelhalim.azzouz.cus@gmail.com

ORCID: [0000-0003-0960-7768](https://orcid.org/0000-0003-0960-7768) [ResearchGate](#) [azzouz1972.github.io](https://github.com/azzouz1972)

Employment history

1999 – 2001	Part-time teacher, University of Tlemcen.
2001 – 2011	Assistant Professor, University of Saida, Algeria.
2011 – 2017	Associate Professor B, Department of Mathematics, Faculty of Science, University of Saida, Algeria.
2017 – 2023	Associate Professor A, Department of Computer Science, Faculty of Mathematics, Computer Science and Telecommunications, University of Saida, Algeria.
2023 – 2026	Professor, Department of Computer Science, Faculty of Science, University of Saida, Algeria.
2026 – ..	Professor, Department of Mathematics, Faculty of Sciences, University Salhi Ahmed, Naama, Algeria.

Education

1990	Baccalaureate, Technicum College, Tlemcen, Algeria.
1990 – 1996	Advanced diploma in Mathematical Analysis, University of Tlemcen, Algeria.
1999 – 2001	Magister, University of Tlemcen, Algeria. Thesis: <i>Optimization of flow rack AR/RS, mathematical tools for flexible manufacturing systems.</i>
2007 – 2011	Ph.D. in Mathematical Analysis (Functional Analysis), University of Oran 1, Algeria. Thesis: <i>On the sum and product of two closed operators in Hilbert space.</i>
2011 – 2018	Habilitation to Direct Research (HDR) in Mathematics, Department of Mathematics, Faculty of Science, University of Saida, Algeria.

Research publications

Journal articles

Communications and schools

- CIMPA–UNESCO school, Control of PDE, Tlemcen (Algeria), 26 April – 8 May 2003.
- Winter School of Geometry and Cosmology, University of Mascara, 17–22 December 2005.
- School of geometry and dynamical systems, El Marsa, Algiers, 6–13 April 2006.
- Symposium *Équations différentielles et Géométrie différentielle* (organizer), Saida, 11–14 November 2007.
- *On almost closable operators*, École du printemps d’analyse fonctionnelle, Rabat (Morocco), 18–23 May 2009.
- *On triviality of sum and product of closed operators*, ICOT, Kerkennah (Tunisia), 2012.
- *On sum and product of closed operators*, International Conference on Advances in Applied Mathematics, Hammamet (Tunisia), December 2014.
- CIMPA school *Nonlinear partial differential equations arising from geometry and physics*, Hammamet (Tunisia), March 2015.
- CIMPA–CIRM school *Nouvelles perspectives sur les équations d’évolution non linéaires*, CIRM, Marseille (France), 3–9 April 2016.
- *On the geometry of the tangent bundle with vertical rescaled metric*, 14th International Geometry Symposium, Denizli (Turkey), 25–28 May 2016.
- *Further extensions of some Eulerian functions*, ICAAM, Djerba (Tunisia), 2022.
- *Generalized extended Riemann–Liouville fractional derivative*, ICMSA, Guelma (Algeria), 2023.

Teaching

- Basic mathematical analysis.
- Linear and bilinear algebra.
- Unconstrained and constrained optimization.
- Operator theory, spectral theory.
- Numerical analysis for engineers.

This list is not exhaustive. As a mathematics lecturer for more than two decades, I have taught core and advanced courses, together with tutorials, to students in the Mathematics, Computer Science, Process Engineering and Commercial Sciences tracks.

Books

Published

- A. Azzouz, *Fonctions hypergéométriques*, Éditions universitaires, 2023.
- A. Azzouz, *Théorie des opérateurs (Étude spectrale)*, Éditions universitaires, 2023.

Forthcoming

- A. Azzouz and K. Djerfi, *Au-delà de Riemann : Mesure, intégration et passage à la limite*, Édition SarahMed (Licence 3 course with exercises, Master complements).
- K. Djerfi and A. Azzouz, *Calcul différentiel dans $\mathbb{R}^n$* , Office des Publications Universitaires (OPU).

Supervision

Ph.D. thesis

- M. Beghdadi (advisor B. Krichen, co-advisor A. Azzouz), *Development of some spectral properties involving the class of tauberian operators*, defended at Sfax (Tunisia), 13 November 2021.

Master theses (University of Saida)

- Allou Zerga, *S-essential spectra of bounded operators*, 25 June 2018.
- Nouari Aicha, *Convergence of operators*, 25 June 2018.
- Chibani Samira, *Confluent functions*, 16 July 2019.
- Ziani Hichem, *Spectral continuity of sequence of bounded operators*, 16 July 2019.
- Aliouane Amine, *Fractional Laplacian*, 16 July 2019.

Scientific visits

10–25 June 2025	International Telematic University UNINETTUNO, Rome, Italy. Invited by Pr. Clemente Cesarano.
10–25 May 2024	International Telematic University UNINETTUNO, Rome, Italy. Invited by Pr. Clemente Cesarano.
10–25 January 2017	Laboratoire de géométrie, analyse et applications, University of Paris 13. Invited by Pr. H. Zaag, PDE research group.
10–20 March 2015	Laboratoire de Mathématique-Physique, Faculty of Sciences, Sfax. Invited by Pr. A. Jeribi, research group on operator theory and fixed point theory.
10–20 July 2014	Laboratoire d'analyse mathématique, Seville, Spain. Invited by Pr. A. M. Rodríguez, operator theory research group.
10–20 March 2012	Laboratoire de Mathématique-Physique, Faculty of Sciences, Sfax. Invited by Pr. A. Jeribi, research group on operator theory and fixed point theory.

10–20 March 2010

Laboratoire de Mathématique-Physique, Faculty of Sciences, Sfax. Invited by Pr. A. Jeribi, research group on operator theory and fixed point theory.

Skills

Languages	Strong reading, writing and speaking competence in English and French.
Coding	Matlab, Python, $\text{\LaTeX}$.
Miscellaneous	Academic research, public animation, training, consultation, $\text{\LaTeX}$ typesetting and publishing.
